

A Flexible and Scalable Email Archiving Solution

Store Your Email Archives Safely and Securely in the Cloud

Our solution brings all the best benefits of the cloud to your organization's email. Reduce costs, enhance security, and access your email seamlessly from anywhere in the world. A secure copy of every email sent or received by your organization is kept on remote servers for compliance and easy searching. These features allow for fewer calls to IT, faster email searches, and far easier auditing.

***REDUCE SUPPORT
ISSUES, EXPEDITE
AUDITING, IMPROVE
SECURITY, AND
SAVE MONEY***

- Scales easily and affordably with no limits on users or storage space
- Platform agnostic and easy to integrate with services like MS365
- Access your email archives anytime, anywhere via the secure cloud
- Boost efficiency and productivity

Our solution is trusted by thousands of users who want to keep their email archives safely and efficiently.

Remove the guesswork from email archive management and security.

A Necessary Part of Layered Cyber Defense

Our Solution Checks Every Box

SIMPLICITY

- ✓ Minimal upkeep with no on-site hardware required
- ✓ Cut migration time and costs by up to 70%
- ✓ Per-live-user licensing model for easy "pay-as-you-go" pricing
- ✓ Can be configured and ready to go within minutes

EFFICIENCY

- ✓ Versatile storage and easy searchability of archived mail
- ✓ Cut costs and time required for mail server maintenance by up to 50% with archive, mirror, and selective restore features
- ✓ Securely-stored copies of every email through your server provide evidential audit trails for compliance and legal purposes

VALUE

- ✓ Scalability leads to affordability, with an extremely flexible and affordable pricing model
- ✓ Save time and resources in nearly all aspects of email management and archival
- ✓ Empower your staff to conduct their own email searches and restores -- one of several ways our solution saves calls to the IT department

Proven By Security Experts | Loved By Our Clients

"[This solution] had the best combination of features, price and support. It did everything we needed for a very reasonable price."

Robert T., Head of IT @ Industrial Chemical

"Worked well and serves the purpose for which it was intended. It works so seamlessly that I sometimes forget it is working in the background."

James C., CEO @ Information Technology Firm

"Very easy to use. Much better search tool than Microsoft E-discovery when searching for emails. Once in place, users can safely clean up their mailboxes knowing that they have a permanent record for them to search and recover."

Lana A., Administrator @ Staffing Firm

A proven email archiving solution that you can easily tailor to your organization's specific needs.
