Based on 250 users, correct as of 15/01/2023.

Research sponsored by TitanHQ ArcTitan. ArcTitan is a cloud based email archiving solution that stores an identical copy of every mail ever sent or received by your users and turns that data into a useful repository for every day use.

$29 million: Damages awarded to plaintiff by jury for not locating and producing emails (Zubulake vs. USB Warburg)

$15 million: Court awarded 15 million dollars in fines for failure to comply with discovery obligations (Coleman Holdings v. Morgan Stanley)

TAKEAWAY: If you can't present requested emails in court the fines can be substantial! Email archiving fulfils your eDiscovery and compliance obligations.

ArcTitan Email Archiving for M365

Adding email archiving to Microsoft 365 is a truly comprehensive approach that gives you all the familiar office productivity tools while addressing your email volumes by compressing, de-duplicating and encrypting every email that your organisation has ever sent or received.

Implementing email archiving will not only give you a powerful and searchable archive, but will also give you peace of mind in regards to compliance.
