

Security Awareness Training 12-Month Campaign

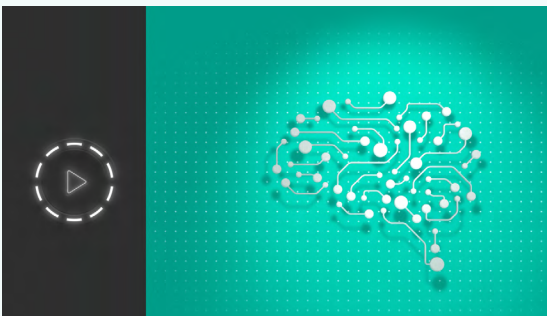

Plan ahead with this comprehensive 12-month Security Awareness Training (SAT) campaign, providing a video each month from the following topics: Security Awareness, Authentication, Phishing, Data Protection, Social Engineering, Web Security, Malware, Working Remotely and Mobile/Removable Devices.

1. Security Awareness Explored

Explores the cybersecurity landscape, explaining the tactics used by cybercriminals and providing expert guidance on how to protect yourself from cyber attacks.

Topic: Security Awareness

Duration: 10:33

2. How to be a Human Firewall

Explains what a human firewall is and how they are essential to maintaining an organization's cyber security. Provides guidance and tips on how individuals can secure their personal and company data.

Topic: Security Awareness

Duration: 6:32

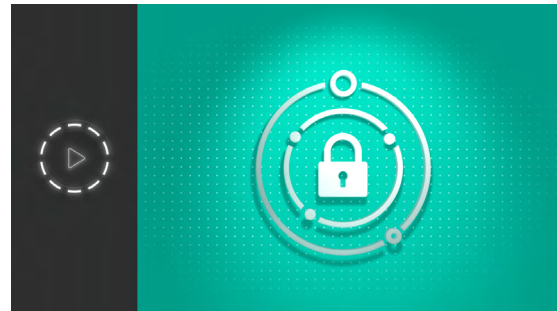

3. Authentication Explored

Explores the history of user authentication and password hacking. Provides guidance on how to create a strong password and illustrates the benefits of password managers and multi-factor authentication.

Topic: Authentication

Duration: 8:40

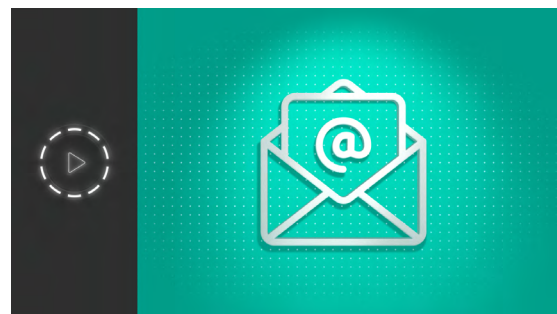

4. Email Security Explored

Explores the tactics cybercriminals use to exploit email communication and the dangers of sending emails to unintended recipients.

Topic: Phishing

Duration: 7:10

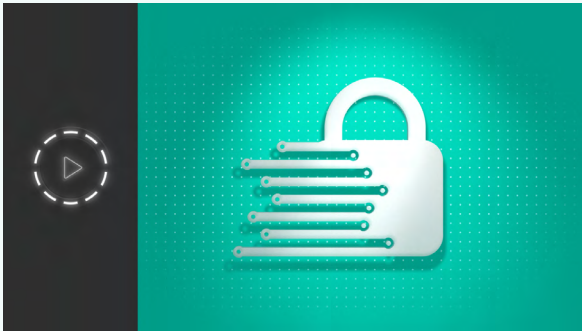

Security Awareness Training 12-Month Campaign

5. Data Protection Explored

Explores the concept of data protection and why it's necessary. Covers the security awareness techniques and legal regulations that can help you protect your data.

Topic: Data Protection

Duration: 7:43

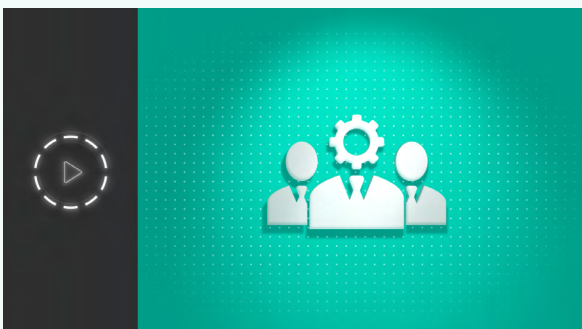

6. Social Engineering Explored

Explores the types of social engineering attacks cybercriminals use to obtain login credentials and unauthorized access.

Topic: Social Engineering

Duration: 8:04

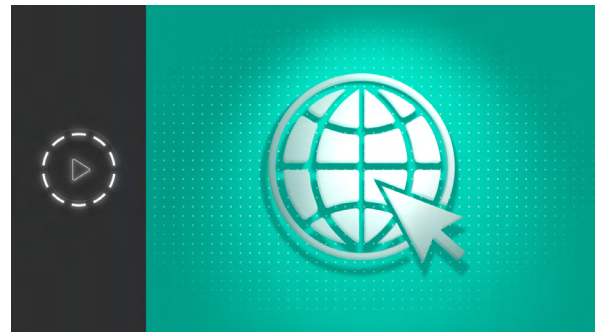

7. Web Security Explored

Covers the origins of the web, the current cyber threats users face, and how to stay safe when browsing the web.

Topic: Web Security

Duration: 9:06

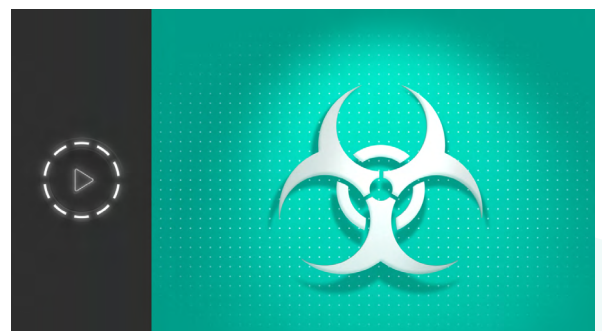

8. Malware Explored

Explores the different types of malware, how they are distributed and how to protect your devices from infection.

Topic: Malware

Duration: 9:15

Security Awareness Training

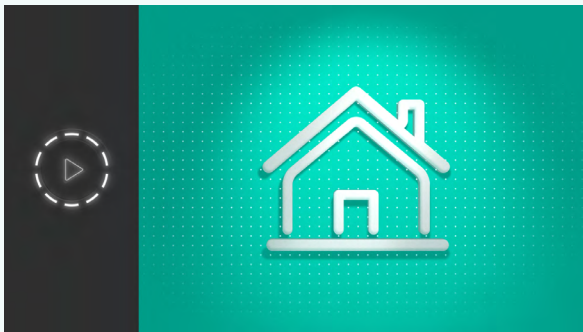

12-Month Campaign

9. Working Remotely Explored

Explores the potential cybersecurity risks of remote working and provides guidance on how to stay safe while working on the move.

Topic: Working Remotely

Duration: 7:05

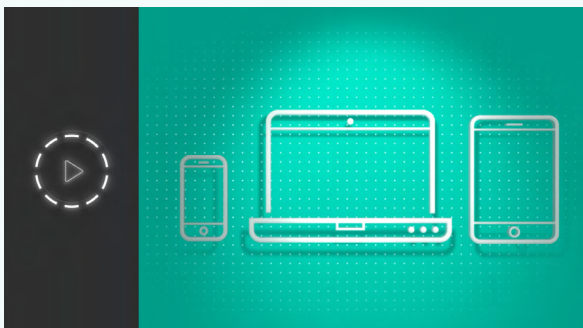

10. Mobile and Removable Device Security Explored

Explores the benefits and risks of using mobile devices and provides best practice on how to secure your devices.

Topic: Mobile/Removable Devices

Duration: 6:15

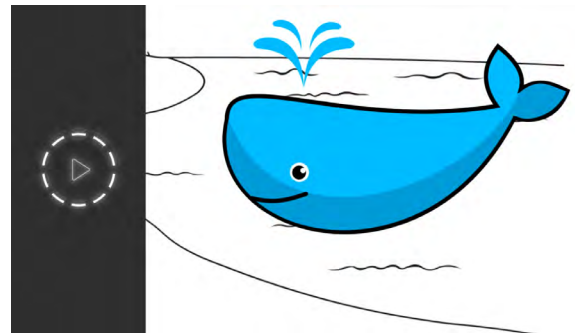

11. Anatomy of a Whaling Attack

Tells the true story of a real-world whaling cyber attack.

Topic: Phishing

Duration: 5:30

12. How to Browse the Web Securely

Explains the techniques and practices that can keep you safe while browsing the web.

Topic: Web Security

Duration: 14:45

About TitanHQ

TitanHQ offers a best-in-class SaaS Cybersecurity Platform delivering a layered security solution to prevent user vulnerability. Our MSP-centric platform enables our partners to generate recurring revenue through the sale of our solutions to SMBs and to scale and effectively manage their businesses.
