

SpamTitan

Multi-Layered Email Protection

SpamTitan Email Protection protects against spam, phishing, and malware threats. It uses advanced machine learning to identify and block new, sophisticated, email-borne attacks in real time.

SpamTitan rejects 99.99% of malicious mail with front-line tests before reaching customer mail servers.

This multi-vector approach scans emails to block phishing threats using:

- Realtime Blackhole Lists (RBLs).
- Recipient Verification.
- Sender Policy Framework.
- DomainKeys Identified Mail (DKIM).
- Domain-based Message Authentication, Reporting, and Conformance (DMARC).

Features:

- Advanced Machine Learning.
- Recipient Verification.
- Sandboxing.
- Real-Time Analysis.
- Geoblocking.
- Attachment Filtering.
- Extensive Email Scanning.
- Innovative Greylisting.
- Anti-Spoofing.
- URL Re-Writing.
- Time-of-Click Protection.
- Heuristic Spam Detection.

Effortless Setup and Configuration

- Simple migration to SpamTitan, get set up, and start blocking email threats in less than 1 hour.
- SpamTitan uses dynamic recipient verification to integrate with M365 to verify users – this simplifies the onboarding process and enables a swift migration.
- 100% cloud-based.
- Multi-level administration – user, domain, and domain group levels.
- Works with any email provider and is easily configurable with M365.
- Streamlined process for uploading block and allow lists.

Market Leaders in Reporting and Mail History

- Cutting-edge email history search, filtering, and export functionality. Customers embrace this feature to assist with monitoring and troubleshooting.
- Extensive set of predefined, on-demand system reports available.
- Unrivalled quarantine reports can be enabled, allowing end users to deliver, allow list, or delete their quarantined email.
- Available in 21 languages.
- Schedule reports to run periodically, with an option to send them to multiple email addresses.

SpamTitan & M365

Advanced threat analytics and world-class threat intelligence are built into the SpamTitan platform and add layers of defense, identifying more threats than Microsoft Security tools can on their own.

With SpamTitan, there are fewer misses, fewer false positives, and less spam, including malicious emails containing malware. No single technology provides security for everything; different layers are crucial. Relying on a single vendor for all your security needs can be risky.

Customer Quotes

"The solution's overall intuitiveness is fantastic. Everything has been great, from our experience dealing with the people at TitanHQ to setting the product up, where you can literally change every setting down to the fine details."

Ricky B. Helpdesk & Internal Systems Manager
at Active IT Systems

"The stability is excellent. We haven't had any issues at all with any of it... The uptime has been fantastic."

David M. CEO at EOPEN Solutions Inc

"SpamTitan is incredibly simple to use; it sets up in minutes, and there are wonderful account and support teams. Just do it. Just use it, and the product will sell itself."

Johnny Z. Service Manager
at OnSite
